The **Add New Zone** page allows you to create and manage service zones with colour coding and service areas.

- **Zone (Required):** Enter the name of the new zone.
- **Colour (Required):** Assign a colour to the zone for easier identification.
- **Service Area (Optional):** Select one or multiple service areas (suburbs/postcodes) where the zone applies. Use **Select All** to quickly include all areas.
- **Submit Button:** Save the new zone and apply the configuration.

**Note:** This page is mainly used to organise and categorise service locations for better scheduling and management.
