

User Guide: Driver Location

Explanation: This feature allows you to track the real-time location of your drivers, including their timesheets, using custom filters.

How to View Driver Location:

The screenshot shows the 'Driver Location' interface. Callout 1 points to the 'Show drivers last positions' toggle switch. Callout 2 points to the driver selection dropdown menu showing 'Stacey Chamberlain, Craig Chamberlain, Jacob Lormans, Amanda I'. Callout 3 points to the 'FILTER BY STATUS' dropdown menu.

1. Click the "Show Driver's Last Position" button to view the last known location of your drivers.
2. Select the driver's name from the list.
3. Choose the task status you wish to view (e.g., completed, in-progress).
4. You can also view the timesheet of the selected driver.
