The **Add New Services** page lets you create a new service entry for your bin hire operations.

- **Category:** Choose the service category (e.g., Gantry Bin Hire).
- **Waste Type & Container:** Select the type of waste and the container used.
- **Stock:** Set available stock for the service.
- **Customer Type & Order Type:** Define which customers can order and the order type.
- **Cost Price / Sell Price / Maximum:** Enter pricing details for the service.
- **Short & Long Description:** Add descriptions to explain the service.
- **Image:** Upload an image to represent the service.
- **Submit:** Save the new service.

Note: This page ensures all details are properly recorded before making the service available.

Close

The **Service Details (Show Service)** window gives you a quick view of a service's availability.

- **Category Product:** Shows which category the service belongs to (e.g., Service, Bin Hire).
- **Stock:** Displays how many units are available.
- **Calendar View:** Highlights availability per day. Red numbers indicate zero stock, while selected dates show details for that specific day.
- **Close Button:** Exit the view when done.

Note: This page is useful for checking stock levels and availability of a service on specific dates.
